1. References appear to have been drafted at approximately the same time by the Home Office and BOB, respectively. The changes we suggested in Reference B are generally in accord with yours of Reference A, although the latter includes some which we did not touch upon. (However, we are in agreement with you that these additional revisions should be incorporated in the revised project outline.) Inasmuch as the original monthly German language reports which are forwarded to the Home Office contain the basic pertinent data relevant to most of these revisions, we feel that the exact wording of these paragraphs can best be set down by the Home Office case officer by using these reports as references. It is especially useful to refer to them with respect to your suggestions in Reference A/Paragraphs 3 b, c.

2. Concerning a statement re funding cover, there is really nothing substantive that we can say which would materially change the wording of Paragraph 6 a of the present project outline. Since the Field and the Home Office are in agreement that a relatively secure funding cover is desirable for DTL/INEN, we suggest that some wording along those general lines be added, without at this time attempting to specify the specific form it should take.

3. With respect to an appropriate statement re the Commission (or, as we prefer to call it, the Enquête) in the revised project outline, we suggest that it be worded in general terms. We feel that this is probably the most sensible procedure, inasmuch as its findings to date have not yet become known to us. We recommend that EDBA-7574 (dated 31 October 1955), EDBM-2211 (dated 15 December 1955), and EDBM-3357 (dated 24 February 1956) be used as basic references for the aforementioned statement.
